

000 ECE472, Deep Learning – Recommendations
001
002
003

- 004 • Use a version control system.
- 005
- 006 • Use virtual environments. Do not use Anaconda.
- 007
- 008 • Use `black` as a code formatter.
- 009
- 010 • Use Flake8 for static analysis.
- 011
- 012 • If you use Windows, use Docker.
- 013
- 014 • Label your axes.
- 015
- 016 • y -axis labels should read from left to right.
- 017
- 018 • Title your plots
- 019
- 020 • Do not use `tf.keras`, `tf.nn`, or `tf.losses` until assignment 3.
